

Skin Problems?

➤ **We've Helped Thousands of Northern Nevadans!**

- Chlorinated water irritates skin and can cause rashes
- Our city water often has **more chlorine than a swimming pool***
- We often hear **"I just moved here and now I have skin problems."**
- Hard water contributes to **skin irritation & dry, dull hair**
- **Our clients save \$\$** on steroid creams, cortisone shots & special soaps
- Softer clothing, towels, and sheets are **less irritating to skin**

Before
Installation of
Evolve EVCRS Conditioner

After
1 week of Pure Water

The water system I bought is awesome. My skin has stopped itching from the water here in Reno. The water was also burning my legs and feet. Pure Water Systems is amazing.

*Our downtown Reno Facility often sees Chlorine levels at 3 ppm and most swimming pools are at 2 ppm

Solutions for treating Dry Skin

Depending on your Contaminant(s), we have the best equipment available to help solve your skin issues :

Sierra Spring Water Maker VII

SALT FREE - Exclusively Designed by Pure Water Systems of NV to combat the chlorine & byproducts found in our local water. 7 stage multi-media filtration system with Anti Scaling -1,000,000 gallon capacity.

Evolve UltROWater Under Sink Reverse Osmosis Drinking Water System

For drinking water only this system removes up to 99.9 % of harmful contaminants. N.NV has the highest arsenic levels in the US.

Evolve EVCRS Water Conditioner

Our Best Seller & most efficient system available! The best possible water for your skin from one system! (Carbon and water softening combination).

Evolve Sanitizer

For Well water. System Softens, removes Iron, manganese and also SANITIZES itself!

Evolve One Tank

3 Micron High Capacity Carbon block to remove/reduce chlorine and chlorine by products.

Whole House UV

Kills bacteria & viruses (For our clients with contaminated wells or compromised immune systems).

Whole House Reverse Osmosis

In many rural applications the water is so high in minerals and other contaminants that a whole house R/O is your best bet.

Customer Reviews

Our skin and hair are softer, and the water feels and tastes great!

Julie Barnett

We had our water system installed yesterday, and we love it! Already our skin feels better and our water.

Debbie Havey

My name is Carol.. My skin developed open sores which oozed a thick brown substance which developed into a rare allergy called Dermatographias.. Water has been one of the hardest problems to solve. I was using distilled water for washing. Laundry has to be run through twice to remove all of the soap out. We received our water system in June 2016 and we have saved lots of water. It is a blessing to take a shower again.

Carol S.

Now, I can firmly state that my hair and skin feel better!

Brad Mills

Recent health problems have aided in the decision to make this investment for better health and better water.

Carisa

No more itching after showers!

Cheryl S.
