number one
condensing
tankless
water heater
in North America

NPE-2 series are the most innovative condensing tankless water heaters on the market

- NPE-A2 ComfortFlow® built-in recirculation system can reheat water in supply lines with recirc loop.
- Durable dual stainless steel heat exchangers and burner.
- Ultra efficiency for lower energy bills and exhaust emissions.
- Strong residential warranty and gentle on the planet.
- Available in natural gas or LP gas and high altitude.
- Compact, stylish, wall-hung design — up to 80% smaller than traditional tank water heaters.

How Navien NPE-2 series tankless water heaters work

Navien premium condensing tankless unit heats water directly without using a storage tank. Cold water travels into unit when the hot water faucet is turned on. The gas burner in the dual heat exchanger heats the water which delivers an endless supply of hot water wherever it's needed.

Bulky tanks are history...Navien high efficiency **compact** tankless is the **future**

Traditional tanks

- Tanks run out of hot water during heavy demand.
- A standard 50 gallon tank may take up to 16 square feet of floor space.
- Even when hot water is not required, the tank is being heated.
- Tanks are up to 30% less efficient than tankless.
- 6-9 year warranty and an expected lifespan of 10-15 years.

Navien tankless

- Endless hot water when you want it.
- Energy Star certified up to 0.96 UEF efficiency.
- Compact space saving design.
- Lower energy bills, longer life.
- 15 year warranty dual stainless steel heat exchangers.

ComfortFlow[®]

Built-in recirculation system on NPE-A2 which includes buffer tank and recirculation pump. The system heats water in supply lines via recirculation loop.

 luxury...
 the comfort of
endless
 hot water plus
 energy and
 space savings

**Endless hot water
 only when you want it**

Navien tankless water heaters deliver a continuous flow of hot water for as long as you need it. There's no waiting for a storage tank to warm up.

Longer life, strong warranties

Navien was first to offer durable dual stainless steel heat exchangers. Navien's advanced technology and superior craftsmanship assure that your tankless water heater will provide years of trouble-free service with a longer life expectancy than a standard tank water heater. For added peace of mind, we offer one of the industry's strongest warranties.

Application		Labor	Parts	Heat exchanger
Residential	Standard or controlled recirculation	1 year	5 years	15 years
	Uncontrolled recirculation	1 year	3 years	5 years
Commercial or Combi*	Standard or controlled recirculation	1 year	5 years	8 years
	Uncontrolled recirculation	1 year	3 years	3 years

*Combi refers to a combination potable water and space heating application. Water heaters cannot be used in space heating only applications.

For complete details please refer to the full warranty at Navieninc.com.

Lower energy bills, easier on the planet

Navien condensing stainless steel heat exchangers recover extra heat that would be lost in non-condensing water heaters. The result is a reduction in energy consumption, lower CO₂ emissions and low exhaust temperatures allowing the use of less expensive PVC venting.

Credits and rebates

There are a variety of energy efficiency credits and rebates available.
