

## **The Clack Water Specialist Control**

features a solid state microprocessor with easy access settings. The control valve design provides optimum service and backwash rates along with soft water brine tank refill and a double backwash feature. It also offers a pre-brine refill feature.

Designed for use with water softening system and/or water filtration system, systems are fully automatic. Valve body and meter module are molded from glass reinforced Noryl for exceptional strength and durability.

## **Locally Manufactured by**

Pure Water Systems of Nevada from the highest quality components at our facility in Reno, NV

## **Over 30 Year Reputation**

Of immaculate customer service satisfaction, integrity and quality!

## **Poly Glass Tanks**

Tanks constructed of a high-density polyethylene inner shell, thermal wound with fiberglass. These tanks are totally non-corrosive!

## **Arsenic Reduction / Fluoride reduction media**

>90% Reduction of Pentavalent Arsenic (AsV) and reduction of other anions without dumping!

SYSTEM INCLUDES A BYPASS VALVE

Model Number	Grains Capacity	Tank Size	Brine Tank	Flow Rate
